

Operations Manager

(Full Time - Permanent Position)

Highly competitive salary plus benefits package

The Lifting Equipment Engineers Association (LEEA) is a global trade association with over 620 member companies, operating in 46 countries around the world. The Association's membership is growing strongly, with the growth expected to continue, LEEA is looking for an operations manager based at our Huntingdon head office to manage the Association's technical team and to coordinate the day to day activities of the Association in conjunction with the Chief Executive and senior management team.

Essential

- Extensive demonstrable experience in a senior management position in the lifting equipment sector
- Experience of budgetary responsibility for sales and expenditure
- A high level of communication and presentation skills
- Excellent people management and leadership skills
- A high level of decision making and problem solving skills
- International sales and business experience

Desirable

- A degree level qualification in an engineering discipline
- Post graduate management training

Package

- Highly competitive salary dependent upon experience
- Car allowance
- Non-contributory pension plan (after qualifying period)
- Private health insurance (after qualifying period)

Applications together with a full CV and indication of salary expectations should be sent to mail@leea.co.uk

Closing Date: 15th March 2013
