# Lifting frame

This is a 1:50 scale model of a lifting frame with a nominal capacity of 720 tonnes and it is made by YCC Models. The original equipment manufacturer is not identified, however it looks like those produced by Hydrosplex - now part of Enerpac. The model is in the colours of Sarens, the Belgian heavy lifting specialist.

The model comes in a fairly plain box with high quality foam rubber protecting the parts. There is no information about the real machine or model, and no instructions. However assembly is straightforward, although a photo or sketch of the assembled model would have been helpful. Some spare pins and two tools are included.

The model comprises sections of metal track which are pinned together, and four bare cylinder jacking units. Each one is highly detailed. There are tiny rollers underneath, so they roll along the tracks smoothly, and the 'pusher' cylinder can extend and retract. The hydraulics have rubber hoses and the casting details are very good including non-functioning lifting eyes, fine grab rails and a detailed equipment and console area. There are realistic small graphics/decals around the units.

The lifting cylinders are well engineered in three stages and extend easily while the head rotates. The locking system is by means of a small Allen key turning very small grub screws, although some were a little stiff initially.

The main beams are heavy-sections, with a safe load graphic. Brackets fit over the beams and four heavy strap guides are supplied for using on loads, however no straps are included with the model which is a pity.

Lift cylinders detailed with hoses

Overall this is a very high quality model with small parts which have to be handled with respect. It can be posed as haulage loads, or when assembled the frame is sturdy enough to handle a heavy model load although care has to be used to make sure lateral loadings are not applied to the frame. Quite a large and detailed model results when it is built up and it can be obtained from the Sarens Shop (<https://www.sarensshop.com>) for €139.
