TOTALSOURCE[®]

The show that grows

Returning for its second year at Donington Park Vertical Days will take place on May 15th and 16th and looks as though it will be bigger than ever.

The show is located adjacent to East Midlands Airport and junction 23a of the M1 motorway, convenient for the cities of Derby, Nottingham and Leicester, while Birmingham is less than an hour away. As in previous years visitors benefit from everything being complimentary including parking, tea, coffee and a hot lunch. The show opens on Wednesday 15th May and also runs through Thursday 16th May.

Dedicated to lifting and working at height

This year's show is the 13th Vertical Days and looks set to be the showcase for a plethora of new product launches making their way directly from Bauma which occurs six weeks prior. The show is already almost fully booked with a number of new exhibitors investing in what is still the only show dedicated to cranes, access platforms and telehandlers, along with a host of component suppliers and service companies.

The full guide to the event will be published in the April/May issue of Cranes & Access magazine, but in the meantime here are a few glimpses of the new products and launches that will be at the show.

Cranes

Liebherr says it may have a few surprises up its sleeve. What we do

know is that it is bringing the first 230 tonne LTM 1230-5.1 to the UK following its launch last year and will debut its 100 tonne LTR 1100 telescopic crawler crane with a Stage V diesel.

Spierings will show the first production version of the three axle SK487-AT3 City Boy hybrid mobile self-erecting tower crane which can handle its maximum lift capacity of seven tonnes at a radius of almost 12 metres and has a maximum radius of 40 metres with a capacity of 1,700kg. This will be shown along with the four axle, seven tonne capacity SK597-AT4 mobile self-erecting tower crane.

First time exhibitor Skyline Arcomet will show the Arcomet A50 Eco self-erecting tower crane which features a 50 metre jib, hook heights up to 36 metres and a maximum capacity of 8,000kg. It will also highlight a number of new Terex tower cranes and the first model of the Potain MRH range of hydraulic luffing jib cranes to be delivered to the UK.

Spierings SK487-AT3 City Boy

Kranlyft will show a range of Maeda cranes including the 2.82 tonne capacity MC285C-3 spider crane which features a slew limit setting, HBC radio remote control

and detachable electric drive motor. It will also have Klaas aluminium truck and trailer cranes, with capacities up to six tonnes and a maximum hook height of 49.9 metres. The Glassworker GW-625 glazing robot with a 625kg capacity and 3.1 metres lift height is also on display.

The European distributor of Kato cranes, Rivertek Services, will hopefully launch the new 25 tonne CR-250R-V city type All Terrain crane alongside other city crane models including the 20 tonne CR-200Rf.

Maeda MC285C-3

Kato CR-200Rf

Montalift M21 4-WDS

Netherlands-based mobile tower crane manufacturer **Montarent Bouwlogistiek** will bring the **Montalift M21 4-WDS** self-propelled, self-erecting tower crane which features a Potain tower crane superstructure and an all wheel drive chassis. The 21 metre/tonne crane has a 26 metre jib with a lifting height from 18.7 metres to a maximum of 25.9 metres. Maximum capacity is 1,800kg.

First time exhibitor Tower Cranes UK will present its new Liebherr LTM 1160-5.2 All Terrain crane used for erecting and dismantling its fleet of tower cranes, which the company will also highlight on its stand.

NRC will show the 80 tonne Hitachi

Sumitomo HSC SCX800A-3 lattice crawler crane, as well as the new 110 tonne TCC-1200 telescopic crawler crane.

Alfa Access Services has recently been appointed as the UK distributor for Italian mini crane manufacturer **BG Lift/Brenerro Gru** and will show the lightweight 580kg capacity M060, 2.5 tonne M250 spider crane and 14.5 tonne CWE 525 tracked loader crane.

Manitowoc will show its new addition to the **Potain** tower crane range - the MRH125 - one of two hydraulic luffing jib cranes. The crane has a maximum capacity of eight tonnes and can handle two tonnes at a 50 metre radius. Two **Grove** Rough Terrain cranes will be on the stand - the RT550E and RT540E-2 - one from **Crowland Cranes** which will also be on the stand demonstrating its new wireless wind speed system.

Jekko spider cranes will be found on the **JT Cranes** stand and will include the UK launch of the lithium powered SPX532, along with the new nine tonne C90 tracked carrier.

First time exhibitor **Foster Cranes** - now the **Hoeflon** distributor - will show a range of Hoeflon cranes including the UK launch of the eight

Hoeflon will be represented by Foster Cranes.

tonne lithium powered C30 compact spider crane.

Access Equipment

Manitou will highlight the prototype of an all-new electric powered boom lift, which will be unveiled at Bauma. It will also show the nine metre 90 V'Air mast boom designed specifically for two operators carrying out aircraft maintenance.

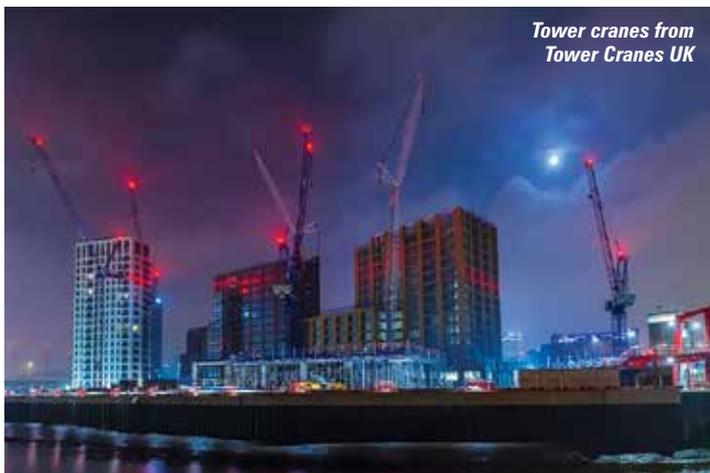

Manitou 90 V'Air

Skyjack will launch its all new Rough Terrain diesel scissor lift range, with platform heights of

up to 63ft and capacities up to 1,245kg. It will also show its completely revamped 40ft narrow aisle slab electric scissor lift, the SJ4740 alongside a number of boom lifts. The company will also be demonstrating a host of new technology and telematics.

Italy's tracked platform manufacturer **Almac** will show its new 33ft Jibbi 1250 Evo telescopic boom lift. The new machine features a three section telescopic boom plus articulated jib and can level on slopes of up to 22 degrees. The machine has a 12.2 metre working

Genie GS-1330m

lift range. It will also demonstrate its new Lift Connect Telematics solutions and show its new lithium ion battery pack on its 19ft GS-1932 scissor lift.

Klubb's UK affiliate **CPL** promises to launch three new innovative products as well as a range of zero emission aerial work platforms. It will also show a number of 3.5 tonne truck mounts and spider lifts from **Palfinger Platforms Italy**.

Dingli will launch the new 65ft JCPT2223RTA Rough Terrain diesel scissor lift with 750kg platform capacity, alongside slab electric scissors ranging from the 12ft JCPT0607DCS to the recently upgraded 45ft JCPT1612DCB.

Dingli JCPT2223RTA

French manufacturer **ATN** - now owned by Fassi - will show its new 12.65 metre Piaf 13RE mast boom with just over six metres of outreach and 200kg platform capacity. It will be joined by the updated 23 metre Mygale 23 spider lift, the Piaf 10RE mast boom and the Zebra 16 STAB articulated boom lift.

ATN's Piaf 13RE

which has a maximum outreach of 17.3 metres.

APS will bring the new 32.5 metre Hinowa 33.17, the 26 metre 26.14 and 20 metre 20.10 Lightlift spider lifts featuring lithium ion battery pack. It will also show the Genie 45ft Z-45 and 60ft Z-60 articulated booms.

Promax Access will use the show to launch a new 20 metre **Platform Basket** spider lift, alongside a number of other Platform Basket spider lifts ranging from 13 to 43 metres.

LGMG makes its second appearance at Vertikal Days and will bring its 46ft A14J articulated boom lift as well as its slab electric scissor lifts including the 12ft SSO407E and the 15ft SS0507E.

Hinowa Lightlift 33.17

LGMG A14J

Bronto Skylift will highlight its 35 metre S35EM truck mounted platform - dubbed the Baby Bronto - which has an outreach of 29 metres and 500kg platform capacity. It will also show an S47XR truck mounted platform.

Bronto S35EM

Vertikal Days

C&A

Versalift VTL135-H

Versalift will unveil a new van mounted platform alongside its recently launched VTL van mounted range and the 13.3 metre LAT135-H pick-up mounted platform.

JCB will show its electric scissor lift range with lithium ion battery option, while **Access Sales International** will show a number of new **Ruthmann** truck mounted platforms ranging from 20 to 75 metres.

AJ Access Platforms will show a 65ft **Holland Lift HL220D25** scissor, a 45ft **Yamei 4655** scissor and a refurbished Genie boom lift. **Central Platform Services** will display the 19 metre tracked **Leguan L190** and the five metre Leguan 50 aerial lift attached to an Avant loader.

Leguan 50

GMG will have its 10 metre VM26-J mast boom alongside its full scissor lift line up and says it will have an additional surprise. It will also

Teupen Leo35T Plus

Bravi's Leonardo self-propelled lift.

demonstrate its new Overhead Warning System and updated control system.

Bravi will bring its Leonardo self-propelled lifts, while **Alfa Access Services** will show the upgraded version of its 35 metre **Teupen** Leo35T spider lift, as well as the new 10 metre **Hematec** Helix 1003XL mast boom alongside the 12 metre 1205 and 15 metre 1508 mast booms.

Alimak will show the Scando 650 construction hoist alongside the Hek MC 450 mastclimber and Hek TPL 1000 transport platform. First time exhibitor **SAEClimber** will show a range of mastclimbers and hoists.

Alimak's Scando 650

Telehandlers

Magni will show the new high capacity eight tonne RTH 8.25 SH 360 degree telehandler, which can handle 5.3 tonnes at its maximum forward reach of 25 metres. UK rental company **GT Lifting** will exhibit telehandlers from Magni and **Merlo** while **JCB** will bring the

Magni RTH 8.25 SH

4,000kg/18 metre 540-180 with platform attachment.

Ancillary equipment and services

The Marketplace Pavilion will include a number of new exhibitors related to the crane, access and telehandler industries including safety equipment, software, components, training, financial solutions and electronics suppliers. The Marketplace also hosts the main café - serving complimentary tea, coffee and pastries all day - while providing a location for networking and a catch up.

The outside area will also include a large number of ancillary products and services including replacement parts and service suppliers **TVH** and **IPS**, plus new exhibitors including **Ferrari International** UK dealer **PCM Transport and Handling Equipment** and safety equipment company **Xenith Heights**. There will also be plenty of lifting gear on display around the show by

exhibitors including **FLG Services**, **Lifting Gear UK** and **Carl Stahl Evita**.

Check out the show online

The products previewed above are just a glimpse of what you will see at Vertikal Days. You can check out the full exhibitor list at www.vertikaldays.net. In the next issue of C&A, we will feature the full, pull out guide to Vertikal Days with more details on new products and a full listing of exhibitors with site plans.

Away from the magazine, look out on Twitter, Facebook and LinkedIn for special stand offers, competitions and promotions. Full details will be listed in the pull-out guide including details on how to win a low-level access platform from one of the UK dealers.

Consistently good

Vertikal Days has become increasingly popular with visitors since the first event back in 2007 at Haydock Park with visitor numbers

Lifting equipment from FLG Services

Catering Pavilion

growing each year. The show provides an opportunity for both visitors and exhibitors to network and make new contacts, while the calmer atmosphere allows exhibitors to spend more quality time with visitors, either on their stands or in the public areas. As usual, the CPA and IPAF will be on hand to greet members, while hosting seminars, meetings and workshops, so try and take advantage of them and learn something new.

Catering and hospitality

All refreshments are included, with lunch provided each day from 12:30 - 14:30 in the Catering Pavilion. Catering will include the popular free range hog roast, alongside the barbecue and a sandwich bar. Hotel rooms within a five mile radius are plentiful, although we would recommend you book as early as possible if you are looking to stay over, particularly on the Wednesday evening.
