Greetings and welcome to the latest edition of the Silvair newsletter!

We're thrilled to announce **Silvair's new partnership with Maxlite**, our **new whitepaper on adhering to U.K. lighting and energy standards**, and our attendance in **Leducation 2024**.

## Silvair Teams Up With MaxLite

We're excited to announce our partnership with **MaxLite**, a pioneer in energy-efficient lighting solutions for the U.S. market! As the company's network partner, Silvair will bring its industry-leading wireless control technology to MaxLite's broad c-Max controls ready luminaires. Multiple Maxlite products are now listed as

qualified Bluetooth NLC components, putting our partner at the forefront of wireless innovation in lighting.

## Ready To Meet U.K. Regulations?

[Silvair compliance guide](#) explores the most important lighting control regulations currently valid in the United Kingdom. It also addresses some of the other legal requirements that affect building owners and lighting manufacturers alike. Download it today to learn how easily commercial real estate and lighting industry stakeholders can adhere to applicable laws and standards using products from Europe's leading manufacturers!

## Leducation 2024

We appreciate the time we have spent at Leducation in NYC, where we had the pleasure of connecting with both familiar faces and new enthusiasts in the lighting industry. It was inspiring to engage in thought-provoking discussions and share ideas that drive innovation forward. A heartfelt thank you to everyone we met for their insights and collaboration. We eagerly anticipate future events where we can continue to learn and grow together.
