Greetings and welcome to the latest edition of the Silvair newsletter!

We're delighted to bring you a fresh dose of October's finest updates, captivating projects, and inspiring initiatives.

Silvair Makes History as the First Certified Supplier of Bluetooth® NLC Solutions

In a groundbreaking milestone, Silvair has secured the title of the world's first certified provider of [Bluetooth NLC](#) solutions. Today, the company proudly announced the successful completion of the Bluetooth NLC qualification process for its firmware stack, reinforcing its leadership in commercial-grade wireless lighting control. This achievement comes only a month after the release of **Bluetooth NLC Profile Specifications**, further advancing multi-vendor interoperability in the global lighting market.

Stay tuned for more on this industry-shaping achievement from Silvair.

Event Recap: Hong Kong Light Fair 2023

In the heart of innovation, Silvair recently had the privilege of joining the Hong Kong International Light Fair 2023. The event was an illuminating experience, and we extend our heartfelt gratitude to all those we had the pleasure of meeting.

Discussions centered around **Bluetooth NLC** and **Silvair solutions**, as we collectively explored the boundless possibilities of lighting technology.

We're excited to continue illuminating the future with our advanced solutions. Stay tuned for more updates, and feel free to connect with us if you'd like to discuss how Silvair can brighten your lighting solutions.
