WEBINAR

Unlocking the intelligent building

How APIs and Connected Services are changing the role of lighting in intelligent buildings

22nd March

14:00 GMT
15:00 CET

Join our Webinar and discover the future of Intelligent Lighting

We are excited to announce our upcoming webinar on "How APIs and Connected Services are changing the role of lighting in intelligent buildings." Join us on **March 22 at 14h00 GMT / 15h00 CET** and learn from our expert speakers, **Ewa Spohn (Silvair) & Edward Lees (Sylvania Lighting)**, on how intelligent lighting solutions can transform your building.

Discover how Silvair and Sylvania Lighting are revolutionizing the deployment of intelligent lighting, facilitating exceptional energy savings, and delivering highly optimized light for great occupant comfort.

During this webinar, you will learn about the APIs that allow you to access data from Bluetooth mesh lighting networks in real time, connect these networks with other building automation and management systems, and build completely new applications on top of them.

Join us and be part of the transformational journey!

McWong International & LSI Industries with DLC Certificates!

We're delighted to inform you that two of our Partners added new DLC Certification to their solutions! LSI's **AirLink Blue** meets the NLC5 Technical Requirements and qualifies for the NLC QPL. Also, **McWong International's TruBlu™** wireless mesh outdoor controls have been qualified on DLC's Networked Lighting Controls Qualified Products List (QPL).

McWong is the first Silvair Partner whose solutions are certified for indoor and outdoor applications. Congratulations!

INTRODUCTION OF SYLVANIA LIGHTING

Introduction to Sylvania Lighting

Sylvania Lighting is a key player in the European lighting market and a **Qualified Bluetooth SIG mesh** ecosystem. They have been Silvair's Partner for several years, using our tools to commission, monitor, visualize, and forecast energy consumption for any lighting installation.

In this video, Silvair's team shares the story behind the partnership with Sylvania. We discuss the Bluetooth mesh ecosystem, Sylvania's SylSmart Connected offer, and the benefits of using their lighting products.

Submissions for 2023 ILC Recognition are open!

As one of the Supporters of the Integrated Lighting Campaign (ILC), we encourage our Partners to submit their projects for this year's ILC Recognition program.

The Integrated Lighting Campaign (ILC) is a recognition and guidance program designed to help facility owners, operators, and managers save energy and money in their facilities. The ILC documents the adoption of integrated lighting systems and advanced sensors in lighting and recognizes exemplary projects.

Last year three projects with Silvair technology were recognized within Integrated Lighting Campaign: [North Bakersfield Toyota](#), [Yamaha warehouse](#), [Spring House Innovation Park](#)
