Foodbook 2026

Enjoy responsibly!

Quality and sustainability play an important role in the selection of ingredients and the preparation of dishes. We work as much as possible with fresh fish bearing the MSC label, organic and/or free-range meat, game and poultry, organic cheeses from the local area and sustainably grown fruit and vegetables.

Why bring something from far away if you don't have to? Together with the Betuws Wijdomein, we make our own LingeWit Cuvee Oud London. A high-quality white wine, awarded with a silver medal, from Erichem, just outside Utrecht.

Our exclusive house wines also come directly from winegrowers in France and Italy. Straight from the wine cellars to your glass. Exceptionally delicious with attention to the environment and our surroundings!

You won't find wine from the so-called "New World" on our menu. There are excellent wines from all corners of the globe, but why go far when there are good wines close by?

Do you have any questions about allergens that may be present in our products? We'll be happy to provide you with information.

Enjoy a delicious meal!

We serve dinner however you prefer, comfortably seated at the table, dishes served per person or shared, or an informal 'walking dinner' style where several smaller dishes are served. On the right and on the next page, you will find an example of a wonderful 5-course dinner menu, but you can also put together your own menu with us, based on our selection of finger food and bites. A buffet is also an option, of course.

'Live cooking' with freshly prepared dishes by our Chef or in a country theme for large international groups. Even a combination of all these options is possible. Would you prefer a street food setting, a rustic BBQ or food trucks at your event? We would be happy to work out a customised proposal for you.

Suggestions:
