

## UNIVERGE BLUE® BACKUP FOR SALESFORCE™

### SECURE, ENTERPRISE CLASS BACKUP OF YOUR SALESFORCE DATA

Bringing enterprise class backup, and various cloud storage options, to those seeking standardized corporate data protection services for their Salesforce data is now possible with UNIVERGE BLUE® BACKUP for Salesforce.

Expanding the enterprise class UNIVERGE BLUE BACKUP and RECOVER family of services, NEC has added Salesforce specific backup capability with the addition of Salesforce specific backup agents. This allows organizations to consolidate and protect all data at the enterprise level. Not only is Salesforce Customer Relationship Management (CRM) content backed up, but through the advanced agent this comprehensive service includes the backup and protection of all Salesforce data including standard and custom objects, documents, attachments, and Salesforce files and metadata.

NEC UNIVERGE BLUE BACKUP and RECOVER for Salesforce ensures that not only is Salesforce data protected, it ensures consistent corporate compliance through standardization and simplifies the organization's overall backup and recovery processes. Additionally, through UNIVERGE BLUE BACKUP and RECOVER, organizations can migrate their Salesforce data through the UNIVERGE BLUE BACKUP Command Portal to restore the data to a local file system, database, or to another

Salesforce instance as needed in a controlled corporate compliance environment.

#### KEY UNIVERGE BLUE BACKUP FOR SALESFORCE FEATURES
